✓

ORDINANCE NO. – 129

1. Name of the course : Diploma in Computer Application (Part-time course)

The course will be under the Board of Studies in Computer Science of the University for academic purposes.

2. Duration : One Year

The Examination shall consists of Total 8 papers in a year (Six Theory Papers and Two Practical), each carrying 100 marks. Candidate should pass in Theory and Practical Examinations separately. Candidate should pass in theory (Theory 80 + Sessional 20) jointly and practical examination separately. Sessional marks of each subject will be awarded internally by the concerned teachers and head of the respective department/college.

Minimum passing marks will be 25% in each theory paper, 40% for each practical paper whereas minimum passing sessional marks of each paper will be 65%.

A candidate failing in one or more subjects will be required to clear it in the next Annual examination. His/Her result will be declared only after he/she clears all the papers, the result should be declared according to the following.

1. Aggregate Less than 34.75% - FAIL
2. 34.75% & more but less than 50% - PASS DIVISION
3. 50% & more but less than 60% - SECOND DIVISION
4. 60% & more but less than 75% - FIRST DIVISION
5. 75% & more - FIRST DIVISION WITH DISTINCTION

A candidate will be permitted to appear in the examination of the course for a maximum period of 4 years. If he/she fails to clear the course within the period of 4 years, he/she will be dropped out of the course.

3. Eligibility and Admission :

A candidate who has passed the Higher Secondary Examination or Equivalent. The admission will be done on the basis of Entrance Test. Admission to Maximum 10% of total seats may be given to eligible candidate(s) under NRI/NRI-Sponsored /Industry/Organization Sponsored category. Entrance Test will not be required for the candidates under this category. In each course 40 students will be admitted in this course but University reserves the right to alter the intake. The reservation of seats will be made as per govt. Rules for SC/ST/OBC/PH category. In case no candidate is eligible /available for admission under reserved category the seats will be treated as unreserved and will be made available for general category candidates. Candidates doing any other Under Graduate or PG Course can also do this course.

4. Fee Structure :

University reserves the right to decide the fee structure, time to time.

5. Syllabus :

The syllabus & scheme of examination has been approved By Faculty of Computer Science Under Hemchand Yadav Vishwavidhalaya, Durg(C.G.) and subject to alteration by the Board of Studies.

**DIPLOMA IN COMPUTER APPLICATION,
DURATION - ONE YEAR - PART TIME]**

The duration of the course shall be one year consisting of two semesters. There shall be three theory and one practical course in the each semester. There shall be grading system of awards.

FIRST SEMESTER: DCA101: Essential of Information Technology and OS

DCA102	:	Essentials of Office Automation.
DCA103	:	Programming in 'C' Language
DCA104	:	Practical based on DCA102 & DCA103.

DCA101

Essential of Information Technology and OS

1. Introduction to Computers

Computer System Characteristics and Capabilities: Speed, Accuracy, Reliability, Memory capability, Repeatability. *Computer Hardware and Software,* Block Diagram of a Computer. *Types of Computers:* Analog, Digital, Hybrid General and Special Purpose Computers. *Computer Generations:* Characteristics of Computer Generations Computer Systems – Micros, Minis & Main-frames. *Introduction to a PC:* The IBM Personal Computer Types of PC systems PC, XT & AT Pentium PC"s.

2. Computer Organization

Introduction to Input Devices : Keyboard, Direct Entry – Card Readers, Scanning Devices – O.M.R., Character Readers, MICR, Voice Input Devices, Pointing Devices – Mouse, Light Pen. *Storage Devices:* Storage Fundamentals-Bits, Bytes, Primary Storage – RAM, ROM, Secondary Storage-Floppy Disks, Hard Disks, Optical Disks, CD/DVD. *Computer Output :* Output Fundamentals, Hardcopy Output Devices, Impact Printers, Non-Impact Printers, Plotters, Computer output, Softcopy Output Devices, Cathode Ray Tube, Flat Screen Technologies.

3. Operating System

MS-DOS - Introduction, History and Versions of DOS. Booting Process, System Files and Command.com, Internal DOS Commands - DIR, MD, CD, COPY, DEL, REN, VOL, DATE, TIME, CLS, PATH, TYPE. Files & Directories, Elementary External DOS Commands - CHKDSK, MEM, XCOPY, PRINT, DISKCOPY, DISKCOMP, DOSKEY, HELP, TREE, SYS, LABEL, ATTRIB, Creating a Batch Files, Additional Commands - ECHO, PROMPT, MODE, EDIT, FORMAT, FDISK, BACKUP, RESTORE, MORE, SORT.

4. **Windows**

Windows Concepts, Features, Structures, Desktop, Taskbar, Start Menu, My Computer, Recycle Bin. Accessories: Calculator, Notepad, Paint, Wordpad, Character Map. Explorer: Creating folders and other Explorer facilities, Internet Explorer basics, navigating the Web, Control Panel.

5. **Linux**

Open Source Software concept and evolution of Linux, Features of Linux OS, Structure of Linux OS, File System, Directory Structure, Linux editors & Editor commands, Linux commands cd, md, rm, mv, ls, cat, find, grep.

Books

1. Using IT : Williams T M Hill
2. IT : Curtin T M Hill
3. Fundamental of Information Technology : Chetan Shrivastava_Kalyani Publishers.
- 4 Computer Fundamentals : P.K Sinha BPB Publications
5. Working with UNIX : Vijay Mukhi [BPB]

ESSENTIALS OF OFFICE AUTOMATION

1. MS-Word- Creating and editing word documents, formatting documents – aligning documents, indenting paragraphs, changing margin, formatting pages, formatting paragraph, printing labels, working with tables, formatting text in tables, inserting and deleting cells, rows and columns, use bulleted and numbering, checking spelling and grammar, finding synonyms, working with long documents, working with header and footer, adding page number and foot note, working with graphics, inserting clip art, working with pictures, Word art, creating chart & Graphs, creating flowcharts, working with mail merge, writing the form letter, merging form documents, merging to label, Working with Mailing lists and Data Sources, selecting merge records, creating macros, running macro.

2. Working with MS-Excel – Introducing Excel, use of excel sheet, saving, opening and printing workbook ,Apply formats in cell & text, Divide worksheet into pages , setting page layout, adding Header & Footer. Using multiple documents, arranging windows i.e. (Cascade, Tiled, Split), protecting your work, password protection. Working with Functions & Formulas, using absolute reference, referencing cell by name , using cell label , giving name to cell and ranges , working with formulas (mathematical & trigonometric , statistical, date time , most recently used), Working with Excel graphics, creating chart & graphs. Working with lists & database, sorting a database, filtering a database ,using auto filter ,criteria range, calculating total and subtotal, creating pivot table, goal seek, recording & playing macros, deleting and selecting macro location.

3. Presenting with PowerPoint – Creating presentation, working with slides, different types of slides, setting page layout, selecting background and applying design, adding graphics to slide, adding sound and movie, working with table, creating chart and graph, playing a slide show, slide transition, advancing slides, setting time, rehearsing timing, animating slide, animating objects, running the show from windows.

4. Introduction of DBMS through MS-Access – Introduction to Database, DBMS, RDBMS, Features of Access, Designing Database, Relationship (One to One, One to many, Many to Many), Create table (Design View, Wizard, Datasheet View), Query (Update Query, Delete Query, Selection Query, Cross table Query, Make table Query).

DCA103 PROGRAMMING IN 'C'

Unit 1 - Introduction to C programming structure and C compiler, Data representation : Simple data types like real integer, character etc. Program, statements and Header Files, Simple Input Output statements in C, Running simple C programs. Primitive data types in C, char, integer, float, Double Long, Double Void etc.

Unit 2- Operators and Expressions – Arithmetic Operators, Assignment Operators, increment and decrement operator, relational and Boolean operators, Mixing of Different data types and operators for forming expressions.

Unit 3- Control Structure: If - statement, If -else statement, Multiway decision, Compound Statement, Loops: For - loop, While -loop, Do-While loop, Break statement, Switch statement, Continue statement, Go to statement. Arrays, Strings, Multidimensional Arrays, Strings, Array of Strings.

Unit 4- Functions : Function main , Functions accepting more than one parameter, User defined and library functions, Concept associatively with functions, function parameter, Return value, recursion function, Structure and Union, Declaring and using Structure, Structure initialization, Structure within Structure, Operations on Structures, Array of Structure, Array within Structure.

Unit 5 Pointers: Definition and use of pointer, address operator, pointer variable, referencing pointer, void pointers, pointer arithmetic, pointer to pointer, pointer and arrays, passing arrays to functions, pointer and functions, accessing array inside functions, pointers and two dimensional arrays, array of pointers, pointers constants, pointer and strings.

TEXT BOOKS :-

1. Let us C - Yashwant Kanitkar.
2. Mastering in C - Venugopal
3. Shaum"s Series

7/9/20

7/9/20

07/09/20

DCA104 : Practical based on DCA102 & DCA103

1 Scheme of Examination:-

Practical examination will be two programs and a project demonstration. It will be of 3 hours duration. All programme with flowchart & algorithms. The distribution of practical marks will be as follows and

Programme 1 (Word / Power point / Tally)	-	10
Programme 2 (Excel / Access)	-	10
Programme 3 (C Program)	-	20
Programme 4 (C Program)	-	20
Viva	-	25
[Practical Copy + Internal Record]	-	15
Total	-	100

2 Practical file should contain printed programs with name of author, date, path of program, unit no. and printed output.

3 In every program there should be comment for each coded line or block of code.

4 All the following programs or a similar type of programs should be prepared.

List of Practical INPUT AND OUTPUT, FORMATTING

1. Write a program in which you declare variable of all data types supported by C language. Get input from user and print the value of each variable with alignment left, right and column width 10. For real numbers print their values with two digits right to the decimal.

LOOPS, DECISIONS

2. Write program to print all combination of 1 2 3.
3. Write program to generate following pattern

a) A B C D E F G
 A B C E F G
 A B F G
 A G

c) *
 * *
 * * *

Sahana
7/9/26

Aman

KC

Manjy
7/9/26

Harsh

Prabhu

b) 1
1 2
1 2 3

d) 1
1 2 1
1 3 3 1
1 4 6 4 1

4. Write main function using switch...case, if..else and loops which when called asks pattern type; if user enters 11 then first pattern is generated using for loop. If user enters 12 then first pattern is generated using while loop. If user enters 13 then first pattern is generated using do-while loop. If user enters 21 then a second pattern is generated using for loop and so on.
5. Write program to display number 1 to 10 in octal, decimal and hexadecimal system.
6. Write program to display number from one number system to another number system. The program must ask for the number system in which you will input integer value then the program must ask the number system in which you will want output of the input number after that you have to input the number in specified number system and program will give the output according to number system for output you mentioned.
7. Write a program to perform following tasks using switch...case, loops, and conditional operator (as and when necessary).
 - a) Find factorial of a number
 - b) Print Fibonacci series up to n terms and its sum.
 - e) Print prime numbers up n terms.
 - f) Print whether a given year is leap or not.

ARRAY

8. Create a single program to perform following tasks using switch, if..else, loop and single dimension character array without using library function:
 - a) To reverse the string.
 - b) To count the number of characters in string.
 - c) To copy the one string to other string;
 - d) To find whether a given string is palindrome or not.
 - e) To count no. of vowels, consonants in each word of a sentence and no. of punctuation in sentence.
 - f) To arrange the alphabets of a string in ascending order.

Sharma
7/9/26

(Amari)

KS

KHany
7/9/26

07/09/26

Paul

9. Create a single program to perform following tasks using switch, if..else, loop and single dimension integer array:
 - a) Sort the elements.
10. Write a program that read the afternoon day temperature for each day of the month and then report the month average temperature as well as the days on which hottest and coolest days occurred.
11. Create a single program to perform following tasks using switch, if..else, loop and double dimension integer array of size 3x3:
 - a) Addition of two matrix.
 - b) Subtraction of two matrix.
 - c) Multiplication of two matrix.
12. Create a single program to perform following tasks using switch, if..else, loop and double dimension character array of size 5x40:
 - a) Sorting of string.
 - b) Finding the largest string.
 - c) Finding the smallest string.

FUNCTIONS

13. Write program using the function power (a, b) to calculate the value of a raised to b.
14. Write a program to perform following tasks using switch...case, loops and function.
 - a) Find factorial of a number
 - b) Print Fibonacci series up to n terms and its sum.
15. Write a program to perform following tasks using switch...case, loops and **recursive** function.
 - a) Find factorial of a number
 - b) Print Fibonacci series up to n terms and its sum.
16. Write a function to accept 10 characters and display whether each input character is digit, uppercase letter or lower case letter.

• **STRUCTURE**

17. Create a structure Student having data members to store roll number, name of student, name of three subjects, max marks, min marks, obtained marks. Declare a structure variable of student. Provide facilities to input data in data members and display result of student.
18. Create a structure Date with data member's dd, mm, yy (to store date). Create another structure Employee with data members to hold name of employee, employee id and date of joining (date of joining will be hold by variable of structure Date which appears as data member in Employee Structure). Store data of an employee and print the same.
19. Create a structure Student having data members to store roll number, name of student, name of three subjects, max marks, min marks, obtained marks. Declare array of structure to hold data of 3 students. Provide facilities to display result of all students. Provide facility to display result of specific student whose roll number is given.

POINTER

20. Write a program of swapping two numbers and demonstrates call by value and call by reference.
21. Write a program in c using pointer and function to receive a string and a character as argument and return the no. of occurrences of this character in the string.
22. Write program to find biggest number among three numbers using pointer and function.

List of Practical

MS- WORD

File New, Open, Save, Cut, Copy, Paste, Drag Drop, Bullets and Numbering, Undo, Redo, Find, Replace, Paragraph Formatting, Character Formatting and Page Formatting.

1. Open a document. Type the following text and perform the tasks as instructed below:-

Working with Word Processor

As already mentioned, a word processor is a package that processes textual matter and creates organized and flawless documents. In addition to it a word processor not only remote all the limitations of typewriter but also offers various useful features that cannot be even dreamt of with typewriter.

Also if same textual matter is to be reproduced with minor changes, retyping the only option in typewriters.

7/9/2026

7/9/26

07/09/26

The word processing (and word processor) originated way back in 1964 when special typewriters. Magnetic Tape Selectric typewriters (MIST) were launched by IBM (International Business Machines).

1. Insert the following text after the first paragraph

The main components of a word processing system are listed below:

- Computer
 - Printer
 - A word processing software
2. Save the document as Word1.doc
 3. Move the second paragraph to the end of the document. Using drag & drop.
 4. Move the second paragraph in the end of the document using cut, paste operations.
 5. Undo the above actions.
 6. Now use Redo actions
 7. Go to the End of the document (in one step)
 8. Go to the Beginning of document (in one step)
 9. Insert page break before the third paragraph.
 10. Search the word "computer: in your document with options Match case, find whole words only.
 11. Replace the word "typewriters" with "word processor"
 12. Undo the above action
 13. Remove All page breaks from your document
 14. Change the magnification of your document to different percentages using zoom features.
 15. Format the above written paragraphs and give the options as follows:
 - (1) Alignment justified
 - (2) Indentation: left 0.2 right:0.2
 - (3) Spacing: before 6 pt. after:6 pt.
 - (4) Special: first line by :0.4"
 - (5) Line spacing 1.5 lines.
 16. Set the default tab stop to 0.3"
 17. Set the margins to 1.25
 18. Format the page using
 1. Left margin:0.5, right margin: 0.5
 2. Top margin:1.5, bottom margin:0.5
 3. Gutter Margin: 1 indentation: left 0.2 right:0.2
 4. Header Margin:0.5

19. Format the each occurrence of group of words „Word Processor“ as bold, italic, under line and small caps using find and replace with formatting options.
20. Align the heading to Centre and make it bold, underlined and italicized.

File New, Open, Save, Find, Replace, Paragraph Formatting, Character Formatting and Page Formatting.

21. Type the text as show below and perform the tasks as directed:

Computers

COMPUTER is an electronic device that processes data and gives meaningful information. Computers are being used in almost all the fields today

EXPERT SYSTEMS

HUMAN THINKING AND ARTIFICAL INTELLIGENCE

Can computer think?

AI at work Today: Natural Language programs and Expert Systems.

THE IMPACT OF COMPUTERS ON PEOPLE

The Positive Impact

The Potential Dangers

THE IMPACT OF COMPUTERS ON ORGANIZATIONS

The information Processing Industry

The Positive impact on Using Organizations

The Potential Dangers for Using Organizations

1. Search for the word „Computer“ in the entire document. All the occurrences of the given word are to be searched irrespective of the case.
2. In the above question note that word also searches, computerization and computerizations“. Now make sure that this time Word searches only for the word „computer“ in the entire document.
3. Change the entire uppercase letter to lowercase.
4. Give a heading to the above written text „COMPUTERS IN TODAY“S WORLD“
5. Centre aligns the Heading text Computer that appears in first line.
6. Apply outside border to entire document.
7. Apply outside border to the just heading text.

8. Change page setup according to the following specifications

Top margin: 1.5", bottom margin: 1.5"

Gutter: 1", left margin: 1.5"

Right margin: 1"

Page width: 7.5", page height: 6.5 "

Orientation: portrait

11. Give a header „Creations“ and footer „The school of computing“. The footer should also consist of page no"s.

12. Give appropriate commands for giving different header and footers for first page and odd & even pages.

11. Save and close the document.

3. Write the following equations in MS-Word:

$4H_3PO_3 = 3H_3PO_4 + PH_3$, $PCL_3 + CL_2 = PCL_5$, $(x+y)^2 = x^2 + y^2 + 2xy$

4. Write the following equations in MS-Word:

$C_2H_5OH + PCL_5 = C_2H_5CL + POCL_3 + HCL$, , $a \div b \neq 0$

5. Write the following in MS-Word:

1. Preheat the oven to 220°C.

2. Copyright ©

3. Registered ®

4. Trademark ™

6. Create the following table in MS-Word:

Name		Rahul	
Roll No.		101	
Subject	Max	Min	Obtain
Java	100	33	75
Multimedia	100	33	70

7. Create a document in MS-Word. Set the watermark as Microsoft. Also write the following text as formatted below: ensuring programming progress by lines of code is like measuring aircraft building progress by weight. --Bill Gates

8. Create the following

9. Create the following:

Computers

10. Create the following table in MS-Word:
Admission 2012-2013

Course	O C	OB	MBC	SC/S T	Tota l
Computer Science	9	18	5	5	37
Commerce	14	25	6	5	50
Mathematics	12	20	4	4	40

11. Create Table as shown

Ca r		Price
Maruti	Omni Van	200000
	Maruti 800	242000
Tata	Sumo	390000
	Sierra	447000

12. Insert the following in MS-Word.

13. Insert the following in MS-Word.

Rabbit

14. Write the following in MS-Word.

- ❖ This is sentencecase.
- ❖ this is lowercase.
- ❖ THIS IS UPPERCASE.
- ❖ This Is Capitalise Each Word.
- ❖ tHIS IS tOGGLE cASE.

15. Create the following list in MS-Word:

❖ Actors

- Bruce Willis
- Gerard Butler
- Vin Diesel

❖ Actress

- Julia Roberts
- Angelina Jolie
- Kate Winslet
- Cameron Diaz

16. Write the following in MS-Word:

1. Cricket Players

A. Batsman

- i. Sachin Tendulkar
- ii. Rahul Dravid
- iii. Virendra Sehwag

B. Bowler

- a. Kumble
- b. Zaheer Khan
- c. Balaji

18. Create labels for your friends' address.

MS – EXCEL

- Create the following worksheet and save the worksheet as wages.xls
PACE COMPUTERS (ATC CEDT), Govt. of India
Payroll for Employee (Temporary)

Today's date	Pay Rate :
--------------	------------

Worker's Name	Hired On	days Worked	Gross Wages
Kushagra	3-Mar-07		
Pradeep	4-Mar-07		
Puneet	5-Mar-07		
Rajeev	6-Mar-07		

(i) Calculate days work and gross wages

- Create the following worksheet and save the worksheet as wages.xls

Name	Basic (monthly) (Rs.)	HRA(% of basic)	DA (Rs.)	Total Salary (1997)	Bonus (Rs)	Total Salary (1998)	% (Increase)
Shirome	5000	10	450		1200		
Somya	9000	15	800		200		
Tanya	7000	12	900		1800		

- Calculate the total salary as sum of Basic salary, HRA, DA, for each employee for 1997
- Calculate total salary for year 1998 as sum of salary of 1997 and bonus
- Calculate % increase in salary from 1997 to 1998

- Create a worksheet as follows

Pace computer (ATC CEDT) Govt. Of India
Payroll for employee (Permanent)

Empcode	name	doj	salary	bonus	net salary
E001	Meenu	3-Mar-95	5000		
E002	Manoj	4-Mar-06	4000		
E003	Preeti	3-Mar-95	4800		
E004	Sumita	6-Mar-07	7500		

Handwritten signatures and dates:
 Sharma 7/3/26

4. create the worksheet as follows

Roll No	Name	English	Maths	Total	Average	Division
101	Kushagra	95	99			
102	Ajay	92	95			
103	Vijay	70	69			
Class Average						

- find Total of two subject for each student
- find average of two subject for each student
- find class as average of average column
- find division of student as first, second, third, assume percentage of division of your own and maximum marks in each student as 100
- Apply conditional formatting for division column, first division should be in bold, second division should be in italic and third division should be underline

1. Create macro in excel to make selected cell, bold, italic outside bordered and center across select

2. create bar chart with given data

	2001	2002	2003
Tea	19	23	25
Coffee	22	24	22
Sugar	45	40	45

- Provide heading production detail
- Provide z axis title; lacks metric tone
- Provide x axis title year

3. Create a table with column heading as shown below and using form perform data entry of records.

Zone	Department	Employee	Salary
West	Marketing	Mukesh	10500
East	Sales	Rahul	20000
South	Marketing	Suresh	5500
North	Marketing	Anju	25000
South	Sales	Neeraj	8000
North	Sales	Ajay	8000
South	Marketing	Mahesh	7500
West	Sales	Rajesh	4500

- Sort the data according to Zone then by Department
- ii. Use group and outline feature to show & hide details

4. Create a table with column heading as shown below and using form perform data entry of records.

Zone	Department	Employee	Salary
West	Marketing	Mukesh	10500
East	Sales	Rahul	20000
South	Marketing	Suresh	5500
North	Marketing	Anju	25000
South	Sales	Neeraj	8000
North	Sales	Ajay	8000
South	Marketing	Mahesh	7500
West	Sales	Rajesh	4500

- Use filter command to show records having zone: West
- ii. Use filter command to show records having zone: West and salary less than 5000
- iii. Use filter command to show records having salary greater than 10000

State	Text 50	Contact's state
ZipCode	Text 50	Contact's zip code
Phone	Text 50	Contact's phone
Fax	Text 50	Contact's fax
E-Mail	Text 100	Contact's e-mail address
LastSalesDate	Date/Time	The most recent date the contact purchased something
DiscountPercent	Number	The customary discount provided to the customer
Notes	Memo	Notes and observations regarding this customer
Active	Yes/No	Whether the customer is still buying or selling products

Q.2. Create the following tables in MS-Access with the referential integrity-foreign key:

1. tblProducts

Primary Key - ProductID

ProductID	Description	Category	Quantity	Cost	RetailPrice	ProductNumber	SalePrice	Taxable
-----------	-------------	----------	----------	------	-------------	---------------	-----------	---------

2. tblSalesLineItems

Primary Key - SalesLineItemID

SalesLineItemID	InvoiceNumber	ProductID	ProductNumber	Quantity	Description	Price	Discount
-----------------	---------------	-----------	---------------	----------	-------------	-------	----------

3. tblSales

Primary Key – InvoiceNumber

InvoiceNumber	SaleDate	InvoiceDate	Buyer	PaymentMethod	TaxLocation	TaxRate
---------------	----------	-------------	-------	---------------	-------------	---------

MS PowerPoint

Q 1 Create a PPT of Atleast 10 Slides with one slide for comparison, one slide displaying a chart with the table.

Q 2 Create a PPT presentation use rehearse timing for the slide show

PROGRAMMING IN PYTHON

Max Marks: 80

Min Marks: 27

Note: The question Paper setter is advised to prepare unit-wise question with the provision of internal choice.

Course Outcome: At the end of course, Student will able to

- Define the Structure and Components of a Python Program.
- Demonstrate proficiency in handling of loops and creation of functions. Identify the methods to create and manipulate lists, tuples and dictionaries.
- Discover the commonly used operations involving regular expressions and file systems.
- Determine the need of scrapping website and working with CSV, JSON and other file formats.
- Interpret the concepts of Object-Oriented Programming as used in Python.

Unit 1 : Introduction to Python :- Installing Python, basic syntax, interactive shell, editing saving and running a script; The concept of data types, variables, assignments; immutable variables; numerical types, operators(Arithmetic Operator, Relational Operator, Logical or Boolean Operator, Assignment Operator, Ternary Operator, Bitwise Operator, Increment or Decrement Operator) and expressions; comments in the program, understanding error messages.

Unit-2:- Creating Python Programs: - Input and Output Statements, Control Statements (Branching, Looping, Conditional Statement, Exit function, Difference between break, continue and pass).

Function: Defining a function, calling a function, types of function, Function Arguments, Anonymous Functions, global and local variables, Recursion

Unit-3:- Strings and Text Files: - Manipulating files and directories, os and sys modules, text files: reading/writing text and numbers from/to a file, creating and deleting a formatted file (csv or tab-separated).

String Manipulations: subscript operator, indexing, slicing a string; strings and number system: converting string to numbers and vice-versa, Binary, octal and hexadecimal numbers.

Unit-4 :- Lists, Tuples and Dictionaries :- Basic list operators, replacing, inserting and removing an element, searching and sorting lists, Accessing tuples, Operations, Working Functions and Methods, dictionary literals, Adding and Removing keys, accessing and replacing values, traversing dictionaries.

Data Structures using Lists: Elementary Data Representation- Linear List Array, Stacks, Queues, Linked Lists, and Trees.

Unit-5:- Modules: - Importing module, Math module, Random Module, packages, Composition, Exception Handling: Exception, Exception Handling, except clause, try, finally clause, User-Defined Exceptions.

DCA106
E- Commerce

Unit – I : Introduction to Electronic Commerce –The scope of E-commerce; Size, growth and future projection of E-commerce market Worldwide and in India; Internet and its impact on traditional businesses; Definition of E-commerce; Business models in E –Commerce environment; Case studies.

Unit – II : Emergence of E-commerce - E-commerce on private networks, Electronic Data Interchange (EDI), What is EDI, EDI in action, EDI basics, EDI standards, financial EDI, FEDI for international trade transaction, FEDI payment system within the US, ACH credit transfer payment system FEDI, application of EDI, benefits of EDI, Electronics Payment system, E-commerce on the web, E-commerce in India,

Unit – III : Internet, Security and E-Commerce: Security of Data/Information in Internet/web environment; Client security, Network security; Virus protection and Hacking; Security Measures: Authentication, Integrity, Privacy, Non-repudiation; Public information, Private information, firewall tunnels, encryption, secret key encryption, public key encryption, digital signature.

Unit – IV: E-commerce Payment Systems – E-Commerce Payment Models: Pure and Hybrid ECommerce Payment Models; Credit Card; Debit Cards; Pre-paid Card; Online debit to the accounts; and Alternative Payment Systems employing Electronic Clearing System of Reserve Bank of India.

Unit – V : Types of E-commerce Business-to-Business (B2B), Business-to-Consumer (B2C); Business-to-Business-to-Consumer (B2B2C) and Consumer-to-Consumer (C2C) E-Commerce , Inter organizational transaction; Business transaction cycle, different types of transactions in Ecommerce environment; Electronic markets, advantages and disadvantages of E-Market, Future of E-Markets; Inter- Organizational E-Commerce transactions; Advantages and Disadvantages of Inter-Organizational E-Commerce.

DCA108 : Practical based on DCA105 & DCA107

PYTHON PROGRAMMING LAB

Course Outcome: At the end of course, Students will be able to

- Learn the Numbers, Math functions, Strings, List in Python.
- Learn the tuples and dictionaries in Python.
- Demonstrate proficiency in handling of loops and creation of functions.
- Identify the methods to create and manipulate lists, tuples and dictionaries.
- Express different decision making statements and functions.

1 scheme of Examination: Practical Examination will be of 3 hours duration. The distribution of practical marks is as follows:

Program 1	-	20
Program 2	-	20
Program 3	-	20
Viva	-	20
(Practical Record + Internal Record)	-	20
Total		100

List of Practical

1. Write a program that reads an integer value and prints —leap year or —not a leap year.
2. Write a program that takes a positive integer a and then produces n lines of output shown as follows.
3. Write a program to create the following Pattern
For example enter a size: 5 -
*
**
**

4. Write a function that takes an integer n as input and calculates the value of $1 + 1/1! + 1/2! + 1/n!$
5. Write a function that takes an integer input and calculates the factorial of that number,
6. Write a function that takes a string input and checks if it is a palindrome or not.
7. Write a list function to convert a string into a list, as in list (-abc) gives [a, b, c].
8. Write a program to generate Fibonacci series.
9. Write a program to check whether the input number is even or odd.
10. Write a program to compare three numbers and print the largest one.
11. Write a program to print factors of a given number.
12. Write a method to calculate GCD of two numbers.
13. Write a program to create Stack Class and implement all its methods, (Use Lists).
14. Write a program to create Queue Class and implement all its methods, (Use Lists)
15. Write a program to implement linear and binary search on lists,
16. Write a program to sort a list using insertion sort and bubble sort and selection sort.

List of Practical of SQL

1. Using the following database,

Colleges (cname, city, address, phone, afdate) Staffs (sid, sname, saddress, contacts) StaffJoins (sid, cname, dept, DOJ, post, salary) Teachings (sid, class, paperid, fsession, tsession) Subjects (paperid, subject, paperno, pape name)

Write SQL statements for the following –

- a. Create the above tables with the given specifications and constraints.
- b. Insert about 10 rows as are appropriate to solve the following queries.
- c. List the names of the teachers teaching computer subjects.
- d. List the names and cities of all staff working in your college.
- e. List the names and cities of all staff working in your college who earn more than 15,000
- f. Find the staffs whose names start with 'M' or 'R' and ends with 'A' and/or 7 characters long.
- g. Find the staffs whose date of joining is 2005.
- h. Modify the database so that staff N1 now works in C2College.
- i. List the names of subjects, which T1 teaches in this session or all sessions.
- j. Find the classes that T1 do not teach at present session.
 - a. Find the colleges who have most number of staffs.
 - b. Find the staffs that earn a higher salary who earn greater than average salary of their college.
 - c. Find the colleges whose average salary is more than average salary of C2
 - d. Find the college that has the smallest payroll.
 - e. Find the colleges where the total salary is greater than the average salary of all colleges.
 - f. List maximum, average, minimum salary of each college
 - a. List the names of the teachers, departments teaching in more than one department.
 - b. Acquire details of staffs by name in a college or each college.
 - c. Find the names of staff that earn more than each staff of C2College.
 - d. Give all principals a 10% rise in salary unless their salary becomes greater than 20,000 in such case give 5% rise.
 - e. Find all staff that do not work in same cities as the colleges they work.
 - f. List names of employees in ascending order according to salary who are working in your college or all colleges.
 - a. Create a view having fields sname, cname, dept, DOJ, and post
 - b. Create a view consisting of cname, average salary and total salary of all staff in that college.
 - c. Select the colleges having highest and lowest average salary using above views.
 - d. List the staff names of a department using above views.

2. Create the following database,

Enrollment (enrollno, name, gender, DOB, address, phone)

Admission (admno, enrollno, course, yearsem, date, cname) Colleges (cname, city, address, phone, afdate)

FeeStructure (course, yearsem, fee)

Payment (billno, admno, amount, pdate, purpose)

- a. Create the above tables with the given specifications and constraints.
- b. Insert about 10 rows as are appropriate to solve the following queries.

Sehmon
7/9/26 (Amaw)
K
K Maniy
7/9/26
Mr
07/09/26
Sub

- c. Get full detail of all students who took admission this year class wise
 - d. Get detail of students who took admission in Bhilai colleges.
 - e. Calculate the total amount of fees collected in this session
 - i) By your college ii) by each college iii) by all colleges
 - a. List the students who have not paid full fee
 - i) in your college ii) in all colleges
 - b. List the number of admissions in your class in every year.
 - c. List the students in the session who are not in the colleges in the same city as they live in.
 - d. List the students in colleges in your city and also live in your city.
3. Create the following database,
- Subjects (paperid, subject, paper, papename) Test (paperid, date, time, max, min)
 Score (rollno, paperid, marks, attendance) Students (admno, rollno, class, yearsem)
- a. Create the above tables with the given specifications and constraints.
 - b. Insert about 10 rows as are appropriate to solve the following queries.
 - c. List the students who were present in a paper of a subject.
 - d. List all roll numbers who have passed in first division.
 - e. List all students in BCA-II who have scored higher than average
 - i) in your college ii) in every college
 - f. List the highest score, average and minimum score in BCA-II
 - i) in your college ii) in every college
4. Using the following database
- Colleges (cname, city, address, phone, afdate) Staffs (sid, sname, saddress, contacts) StaffJoins (sid,
 cname, dept, DOJ, post, salary)
 Teachings (sid, class, paperid, fsession, tsession) Subjects (paperid, subject, paperno, papename)

Write SQL statements for the following –

- a. Create the above tables with the given specifications and constraints.
 - b. Insert about 10 rows as are appropriate to solve the following queries.
 - c. List the names of the teachers teaching computer subjects.
 - d. List the names and cities of all staff working in your college.
 - e. List the names and cities of all staff working in your college who earn more than 15,000
5. Using the following database
- Colleges (cname, city, address, phone, afdate) Staffs (sid, sname, saddress, contacts) StaffJoins (sid,
 cname, dept, DOJ, post, salary)
 Teachings (sid, class, paperid, fsession, tsession) Subjects (paperid, subject, paperno, papename)

HTML LIST OF PRACTICALS

Q.1. Write an HTML program to create the following table:

Class	Subject1	Subject2	Subject3
BCA I	Visual Basic	PC Software	Electronics
BCA II	C++	DBMS	English
BCA III			CSA

Q.2. Write an HTML program to create the following lists:

- C □ C++
- Fortran
- COBOL

Q.3. Write an HTML program to create the following lists:

1. Java
2. Visual Basic
3. BASIC
4. COBOL

Q.4. Write an HTML program to demonstrate hyperlinking between two web pages. Create a marquee and also insert an image in the page.

Q.5. Write an HTML program to create frames in HTML with 3 columns (Width = 30%, 30% , 40%).

Q.6. Write an HTML program to create a web page with a blue background and the following text:

New Delhi

New Delhi, the capital and the third largest city of India is a fusion of the ancient and the modern. The refrains of the Muslim dynasties with its architectural delights, give the majestic ambience of the bygone era.

Q.7. Write an HTML program to create the following table:

Admission

Course	OC	BC	MBC	SC/ST	TOTAL
Computer science	9	18	5	5	37
Commerce	14	25	6	5	50
Grand total					87
